On Sunday morning we had a stressful time trying to get out to the middle of the dam to do the bridge for the MOD. Our Committee boat was all packed and the flags laid out from the previous days racing. But we could not get an engine that works to get us to the Committee boat. After trying the 3rd engine no success. We launched the VCA rubber duck! We then got to the Committee boat, took of the flags and all other stuff we needed and headed for the middle of the dam. We arrived there late, 11h00. LDYC mark layers were there and with the help of Randolph, the marks were already in position. Only one mark had to be moved. Other than them disaster of a start, the day went very well in deed. We managed to fit in 3 races.
